

Insect Repellent Permission Form

The children and staff at Waverly Child Care and Preschool look forward to spending time outdoors during the summer months.

Upon the recommendation of public health officials, due to high risk of insect borne disease, insect repellent containing DEET can be applied to your child. This will be applied once daily. **The Center will provide insect repellent for your child, and apply it before going outdoors the first time each day.** If your child has a skin allergy you may provide your own bottle of labeled insect repellent.

***Please mark one of the following:**

_____ **Yes, I give Waverly Child Care & Preschool staff permission to apply insect repellent to my child.**

_____ **No, I do not give Waverly Child Care & Preschool staff permission to apply insect repellent to my child.**
